TRIM
A4, 210 × 297 mm

BLEED
3 mm for the printer

STOCK
140-160 gsm uncoated, high bulk, matt

BINDING
Padded, clean single-sheet tear-out

SAFE MARGIN
12 mm, all four edges

PRINTING
1/0, 100% K only – never rich black

REVERSE
Blank – it is the display side

ARABIC
Outline all text before output; proof on paper, not on screen

Sheet 1 – illustration area

A single oryx in profile on open ground, long straight horns, generous unbroken body shapes for young hands. Low dunes suggested behind, not detailed.

Verify before print: Coat and heat description; conservation story if used in copy elsewhere.

ارسم لها صديقاً

Draw it a friend

المها العربي لونه أبيض، ويعكس ضوء الشمس ليبقى بارداً في الحر.

Sheet 2 – illustration area

Three date palms of different heights, heavy date bunches, a low basket at the base. Fronds drawn as separable strokes a child can color one by one.

Verify before print: Variety names and spellings.

لوّن كل عذق بلون مختلف

Color each bunch a different color

Sheet 3 – illustration area

A dense grove seen from within – palms overhead, a water channel through the foreground, small figures walking. Depth without perspective tricks.

Verify before print: Oasis scale claim and UNESCO World Heritage listing wording.

ما الذي يعيش في الماء؟ ارسمه

What lives in the water? Draw it

Sheet 4 – illustration area

The escarpment edge in strong horizontal bands of rock, a tiny figure standing safely back from the drop for scale, wide empty sky above.

Verify before print: PRIORITY – the marine-origin geology claim for the Tuwaiq escarpment. Most likely fact here to be over-simplified into something wrong.

لوّن كل طبقة صخرية بلون

Give every rock layer its own color

Sheet 5 – illustration area

Dense coral heads and fish filling the whole sheet. The busiest page in the pad, deliberately – the reward page for a child who wants to spend a long time.

Verify before print: That corals are described as living animals correctly for this age.

أضف سمكة من ابتكارك

Add a fish that you invent

الشعاب المرجانية بيوت حيّة، تعيش فيها آلاف الأسماك.

Sheet 6 – illustration area

Shoreline with mangroves, wading birds mid-step, one gazelle at the treeline.

Verify before print: Which species to depict; the Farasan gazelle's status and whether to name it.

من أين جاء هذا الطائر؟ ارسم طريقه

Where did this bird come from? Draw its path

Sheet 7 – illustration area

A rose bush in bloom in the foreground, terraced fields behind, two hands picking a single flower into a basket.

Verify before print: Harvest timing and season.

كم وردة تستطيع أن تلون؟

How many roses can you color?

Sheet 8 – illustration area

Stacked stone tower-houses rising up the slope, white quartz lines banding each storey, small windows in rhythm. Strongly geometric.

Verify before print: Construction materials and the quartz banding description.

صمّم نافذة جديدة لبيت

Design a new window for one house

بيوت رجال ألمع مبنية بالحجر، وتزيّنها خطوط بيضاء من المرو.

Sheet 9 – illustration area

One tall facade in Historic Jeddah, three storeys of carved wooden roshan bay windows filling the sheet – the single best pattern page in the pad.

Verify before print: Singular/plural (رواشين / روشان), the function description, UNESCO listing wording.

لوّن كل روشان بنمط مختلف

Give every roshan a different pattern

Sheet 10 – illustration area

Najdi mud-brick walls with triangular openings, stepped parapets, palms behind. Warm, solid, simple masses.

Verify before print: At-Turaif spelling and UNESCO listing wording; construction description.

ارسم ما يوجد خلف الباب

Draw what is behind the door

بُنيت الدرعية بالطين، والجدران السميكة تبقي البيت بارداً.

Sheet 11 – illustration area

One free-standing sandstone tomb facade carved into rock, desert floor, a bird on the crown for scale.

Verify before print: The age claim, Nabataean attribution, and whether to name Qasr al-Farid specifically.

لَوْن الصخر بألوان الغروب

Color the rock in sunset colors

Sheet 12 – illustration area

An interior wall covered in geometric Asiri painting, a woman's hand at the edge mid-stroke. Pure pattern – the child completes the wall. MOTIFS MUST COME FROM GENUINE REFERENCE, NEVER INVENTED.

Verify before print: HIGHEST PRIORITY. Attribution to Asir and to women artists must be exact; motifs drawn from genuine reference, not invented; confirm UNESCO intangible-heritage wording before any marketing use.

أكمل النقش بألوانك

Finish the pattern in your own colors

Sheet 13 – illustration area

A ground loom with a partly-woven band, the geometric pattern running off the sheet edge so the child continues it. Reference-based motifs only.

Verify before print: Materials, the transmission description, UNESCO intangible-heritage wording.

أكمل النسيج بنمطك

Continue the weaving with your own pattern

Sheet 14 – illustration area

A workbench: clay pots at three stages, coiled khoos baskets and mats, hands working. A making page rather than an object page.

Verify before print: The term **خوص** and the list of woven objects.

ماذا ستضع في السلة؟ ارسمه

What will you put in the basket? Draw it

Sheet 15 – illustration area

A dallah, small handleless finjan cups arranged on a tray, a dish of dates beside them.

Verify before print: Serving custom described accurately and without over-generalising; UNESCO wording.

ارسم من سيشرب معك

Draw who will drink with you

Sheet 16 – illustration area

Market stalls across the full width – spices in open sacks, fabric bolts, brass and baskets, shoppers of different ages. The most detailed everyday-life page.

Verify before print: Depictions of dress and setting are contemporary and not caricatured.

أضف بسطة جديدة إلى السوق

Add a new stall to the market

Sheet 17 – illustration area

A falcon at rest on a gloved hand, wings folded, in profile. Sky behind, a second falcon in flight small in the distance.

Verify before print: Speed claim, training description, UNESCO intangible-heritage wording.

ارسم ما يراه الصقر من الأعلى

Draw what the falcon sees from up high

IV

17 / 20

The falcon is among the fastest birds, and is trained by its keeper with long patience.

الصقر من أسرع الطيور، ويتدرب على يد صاحبه بصبر طويل.

Sheet 18 – illustration area

A contemporary city skyline in clean geometric masses, a metro train crossing the foreground, trees and people at street level. Modern, lived-in, not a postcard.

Verify before print: Metro description current at time of print.

صمّم مبنى جديداً في المدينة

Design a new building for the city

Sheet 19 – illustration area

Two astronauts floating inside a station module, Earth through the window with the Arabian Peninsula visible below.

Verify before print: The 2023 mission facts, and whether to name the astronauts on the sheet – naming real living people needs a deliberate decision, not a default.

ماذا ستري من النافذة؟ ارسمه

What would you see from the window? Draw it

Sheet 20 – illustration area

A decorated empty frame – a border drawn in motifs echoing sheets 12 and 13
– and nothing inside it. Design the border so a phone photo of a finished
sheet looks good with no cropping.

Verify before print: Arabic phrasing reads naturally to a child.
